

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PROCEEDINGS
OF THE
ACADEMY OF NATURAL SCIENCES
OF PHILADELPHIA.

VOL. II. JAN. AND FEB., 1845. No. 7.

Stated Meeting, January 7, 1845.

VICE PRESIDENT MORTON in the Chair.

Mr. Haldeman presented a communication from Dr. Mel-sheimer, containing additional descriptions of N. American Coleoptera, which was referred to the committee on his former papers.

A communication was read from the Librarian of Congress, returning acknowledgements for a copy of the Catalogue of the Library of the Academy.

A communication from the Corresponding Secretary of the Georgia Historical Society, dated Savannah, Dec. 16, 1844, acknowledging the receipt from the Academy, of a copy of Harlan's Medical and Physical Researches.

Stated Meeting, January 14, 1845.

VICE PRESIDENT MORTON in the Chair.
